Ashutosh Kumar 1601010

Nilesh Agarwal 1601037

Shikhar Yadav 1601049

## I. Daily\_Meeting\_21

- Continuing with our discussion with DFD level2.
- A level 2 data flow diagram (DFD) offers a more detailed look at the processes that make up an information system than a level 1 DFD does.
- It can be used to plan or record the specific makeup of a system.
- We have implemented the diagram and continued to work State Diagram.
