## I. Daily\_Meeting\_23

- Continuing with our discussion with ER Diagram.
- An Entityrelationship model (ER model) describes the structure of a database with the help of a diagram, which is known as Entity Relationship Diagram (ER Diagram).
- An ER model is a design or blueprint of a database that can later be implemented as a database. The main components of E-R model are: entity set and relationship set.
- We have implemented the diagram and continued to work with the HTML Webpage design.
