Foodie

Ashutosh Kumar 1601010   Nilesh Agarwal 1601037   Shikhar Yadav 1601049

I. Daily_Meeting_16

- We initialized our discussion by some modification in collaboration diagram. Some of the redundancies were considered for removal.

- From this discussion we started to work on API's. We read the details of Zomato api on zomato website as well as on quora. We discussed the terms and conditions of using this api.

- We found a working demo of this api on github. We planned to review this later when we start integrating it on our website.
